## OUR CITY SCHOOLS.

### Examinations of the Boys and Girls' Departments, High School.

### The Honor Rolls, Promotions and Prize Lists—Interesting Proceeding.

There was a large attendance of visitors at the public school again this morning, when the first and second divisions assembled to perform the closing exercises.

Assembled in one large room the young generation were a cheering sight to look upon. Pretty little girls dressed in holiday costume, seated on one side; and bright little boys, with enough suppressed mischief in them to make them interesting, on the other, all stimulated with a temporary excitement begotten of a prospect of future pleasures, presented a scene pleasing and profitable to those contemplating it. The usual programme prepared for such occasions was rendered very nicely. In fact the programme was of a more than usually interesting character. A rivalry was shown between boys and girls that was very amusing, the claims of "Down Trodden Man" and "Ill-used Woman" being as fully and effectively presented as if this had been a "woman's rights" convention, and one of the opposite sex, in session in the same room. The recitations and singing were good. At the conclusion of the programme the prizes were presented by Messrs. J. A. Halliday and D E Kerr, principal and first assistant of the boys' school. Following is the

### JAMES BAY WARD.

#### Closing Exercises of the School—Bright Children Pleased Visitors.

The proceedings in the James Bay ward school this morning were witnessed by a large number. Many parents and others showed their interest in the work and encouraged the teacher by their presence. Miss Storey, as usual, had an interesting programme prepared for the entertainment of the visitors and to show what the little people under her care could do. It is needless to say that both objects were accomplished in an entirely satisfactory manner, demonstrating that the children are not only being well drilled in the essentials, but also in those other arts which go to make the accomplished men and women. At the conclusion of the programme the prizes were presented and speeches complimentary to the teacher and pupils delivered by trustees and others. Following were the visitors:

Mrs. Warren, Mrs Butler, Mrs Hosey, Mrs Lange, Miss Warren, Mrs Hosey, Mrs Lange, Miss Pittock, Mrs Robinson, Mrs Calder, Mrs Robinson, Mrs Burt, Mrs Stamford, Miss Caton, Mrs Redfern, Mrs Chantrell, Miss Spencer, Trustees Wolfenden and Mallandaine, Dr. Reid, Mr C E Redfern Mrs W C Robinson, Miss Wolfenden, Mrs Franklin, Mrs F Taylor, J Montague Lost, G B Armstrong, Trustee Erskin, W M Wood.

Halifax, June 27—A reliable correspondent telegraphed the following from Guysboro this afternoon: A huge sea serpent was seen here to-day by a party of lady tourists who were out on a boating excursion. ### Justice Maguire Talks in the Capital About Gabriel Dumont.

(Special to The Times.)

Ottawa, June 27.—Justice Maguire, of the Supreme Court of the Northwest Territories, is in the city. He says that Indians in the Northwest are peaceable and quiet, and there are no fears of Gabriel Dumont creating another rebellion, as the half-breeds look upon him as a coward. To ordinary French-Canadians here this statement will be ill-taken, as I know all of them look on him as a hero.

Sir John will leave at the end of this week, if possible, for River Du Loup.

Chas. E. Redfern and wife returned from a trip to the Golden State by the Walla Walla.

### Manslaughter at North Bay, Ontario—The Cronin Murder Case.

By Postal Telegraph.]

Chicago, June 26.—The sensation of the afternoon was the announcement that Lawyer John T. Boggs, ex-president of Camp 20, Clan-na-Gael, by which body it is held that the physician's death was decreed, and who was deposed from the presidency of the Irish-American Club a few nights since, had been placed under arrest. The investigation developed the fact that he had been taken from his lodgings shortly after midnight and locked up in the Warren avenue station. He was brought down to the court house late this afternoon in a patrol wagon strongly guarded by the police, and ushered without delay into the presence of the grand jury. For an hour or more a volley of questions were fired at him, but to all evasive replies were returned. He particularly refused to admit that shortly before Dr. Cronin's murder he had made a bitter speech in Camp 20, denouncing the physician as a British spy. At the conclusion of his examination he was returned to the police station. Lawrence Buckley, another prominent Clan-na-Gael, is to be called to-morrow. Rumors are again current that other important arrests are imminent.

DRAWING IT RATHER FINE.

Paris, June 27.—The proprietor of a cafe here was recently imprudent enough to make a specialty of Bavarian beer, and in consequence lost his French customers, who accused him of being a traitor. The papers took up the question and published violent attacks upon the proprietor, who was finally obliged to publish a card saying he recognized his mistake and hereafter nothing that could recall the name of Germany would be sold in his establishment.

DISSATISFIED STOCKHOLDERS.

Kingston, Ont., June 27—A meeting of shareholders of the Cotton Mill was held yesterday. No dividend was declared and the stockholders are dissatisfied with the financial results. Some contend that it is not right that the profits of the mills should all fall to the employees, while men whose money is invested receive no returns.

### OUR CHIEF JUSTICE AND OUR JURIES.

The reversal of the verdict of a special jury in the case of STEPHEN JONES vs. the Guardian Insurance Company has startled the community and everybody wants to know what it means. Mr. JONES had sued the company for $4,000 on a building and its contents in Esquimalt, which were burned, and two special juries had given an award in his favor. But the Chief Justice has reversed the finding of the last jury because they said in their verdict that there had been no fraud, and yet they only awarded $3,463 instead of $4,000. The verdict is therefore inconsistent according to Sir MATTHEW BEGBIE, and so he has reversed it absolutely, and given it in favor of the insurance company with costs. This is a very unusual step to take, for it is not often that a judge absolutely reverses the verdict of two juries; but if it is the law, it is the law, and there's an end of it, and the public must acquiesce in the verdict of the learned judge.

When a judge thinks that it is not *infra dignitatem* and beneath the dignity of an English gentleman, to tell a jury of Victoria citizens that they are "a lot of pudding-heads," and to tell another jury that they have "no brains," it is then our business to come down to his level, and to laugh our loudest. It may be more serious when he tells a jury which has acquitted a prisoner accused of assault, that now the prisoner will be able, after such a verdict to "sandbag" them, without any fear of the consequences. Still these things are allowed and tolerated when the judge thinks himself a man of *bel esprit*, a wit, and a humorist; and perhaps they do no harm and they may do some good in showing that most of us are better than one another. In such cases the juries have contented themselves with imitating the judge in his use of the vernacular and have simply said inwardly "you're another." A few years ago a special jury chosen for its "superior intelligence" sat for six days on a business dispute, Fan vs. Fan, and after discussing the merits of the case they were locked up all night without food and without fire. The jury consisted of eight gentlemen, and they were not provided even eight chairs to sit upon. It is related of one prominent citizen that he lay all night on the floor "like a jury-man taking his rest, with a provincial map around him." These petty details must be excused, for they are in keeping with what followed. In the morning the jury had not agreed on a verdict, and had to be discharged, on which Sir MATTHEW BEGBIE thought it consistent with himself to "reprimand the jury pretty severely for failing to arrive at a verdict, even intimating that a *financial influence* may have swayed the judgments of some of the members." So very direct, so very horrible, an accusation of bribery could not be tolerated without the severest censure from our fellow citizens, so, accordingly the jury published the following letter which is one of the strongest censures ever passed on a Judge. It runs as follows:

"We the undersigned jurors in the late case, Fan vs. Fan, desire to express our indignation at the suggestive imputations of bribery made by the Chief Justice against the jury.

It is a poor recompense for our six days' time, devoted to the case, and a whole night's incarceration with its attendant discomforts to be subjected to *insult*, and that from a quarter which precluded our defending ourselves against the calumny."

(Signed).

C. W. R. THOMSON, Foreman,
ALEX. B. GRAY, (Merchant)
S. J. PITTS, (Merchant)
CHAS. E. REDFERN, (ex-Mayor)
C. H. WILSON BROWN,
JOHN J. AUSTIN,
HENRY HARVEY, (Turner, Boston & Co.)
EDWARD HARRISON.

It will be seen that the eight gentlemen who formed this jury were composed of some of our best citizens equal to Sir MATTHEW BEGBIE in education and education, and superior to him in business knowledge and in gentlemanly manners. If the Chief Justice apologised he did it privately.

It is laid down in all books of authority that it is for "the jury exclusively to say guilty or not guilty" and that "the Judge has no right to decide the fact, nor the jury to decide the law." Here there were eight gentlemen serving six full days in a jury box, and one whole night without food, and practically in a prison. They were serving their Queen and Country for something like 83 cents a day, though they were all men of wealth and position. How would our judges like to serve on such terms? Sir MATTHEW BEGBIE does not serve his Queen and his Country without payment, and so in that respect jurymen are his superiors. They are also his superiors in another way, for he is their servant. We who are citizens and voters appoint all the judges through the ballot box, and we pay them, and when they do not please us we dismiss them. We alone have those powers. Why then should any of us cringe and quake before any judge? And yet we do so.

About the middle of last month, Sir MATTHEW BEGBIE presided at the libel suit brought by Sir WM. HOSTE against the Colonist, and the verdict of the citizens being directly in the teeth of the charge of the Chief Justice and of his opinion, he had the—shall we say—"hardihood," or "audacity," or "effrontery," to say to them in tones monitory and minatory:

"Well, gentlemen, it is a satisfactory thing to know that every one of you can have the same thing printed and published of you for one dollar.

"I do not think, gentlemen of the jury, that any of you need be afraid after the verdict that you have given, that you will be calumniated by the press of this province."

Why there was no protest from the jury, as in the Fan Fan case, we do not know, unless it was because the foreman, who recently on another public occasion resented with spirit an offensive imputation, did not fully catch the words of the Bench. Jurymen should not be timorous in should jurymen be so timerous in defence of their own dignity? They should ponder well that judges are appointed by them, paid by them, and dismissed by them, just as policemen are; and that judges are in every way servants of the voters, and subject to their will.

That which the jury in the Colonist case had not the presence of mind to do, was attempted by the last grand jury, but it fell through owing to a stupid mistake. The grand jury spent several hours in discussing and drafting a presentment of a very strong character, referring to the treatment the jury in the HOSTE libel case had received from the Chief Justice; but after it was unanimously agreed upon and drafted, it was suggested that it should be submitted to the judgment of a highly placed Legist, who was then in the law courts. As anyone might have foreseen, the Legist was not likely to approve of a censure on his official superior, so the presentment was not presented, much to the regret of several of the grand jury and also of the general public.

Now, if the Chief Justice would engage to bind over Sir MATTHEW BEGBIE in his own recognizances to keep the peace towards the newspaper men and the citizens who are jurymen, a pleasing compromise might be arrived at. The newspaper men would forgive him for calling THE TIMES a "wretched sheet" and the Colonist a "dirty, filthy rag," and we believe the jurymen also would let bygones be bygones if he would promise to abuse the barristers only, in the future. Sir MATTHEW, it is said, was once a paid newspaper reporter himself, and he should feel some sympathy for them and for newspaper men, for he has all the abilities of a good editor as well as many of the instincts of a good citizen. The other day in court, in the case of WARREN vs. BOSCOWITZ, Sir MATTHEW pleased and charmed the audience by his rough-and-tumble manner towards the barristers. He told Mr. W. J. TAYLOR that he would send for a policeman to make him "sit down," and it goes without saying that he threatened Mr. TAYLOR with "contempt of court." Now, we don't much object to scenes like these between legal authorities and we don't suppose Mr. TAYLOR does either, for Mr. TAYLOR will be a judge some day himself, and he can look forward to taking it out of the young ones when that time comes.

On another occasion Sir MATTHEW spoke to Mr. A. N. RICHARDS, Q. C., our respected police magistrate, in such a way that Mr. RICHARDS tore off his wig, packed up his books, and vowed and declared he would never plead before Sir MATTHEW again. He has kept his word, though it is several years since, but who can tell at what cost to himself, and at how much loss of dignity to somebody else.

However, we think our suggestion of a compromise a fair one, for nobody will complain if the Chief Justice bullies barristers only. Let him threaten them as often as he likes with policemen, and with "contempt of court," taking care, however, at the same time not to make the Court contemptible.

### LABOUCHERE ON THE FRENCH REVOLUTION.

LABOUCHERE expresses himself as much surprised at the jeers from the Tory benches whenever any Liberal during the debate upon the withdrawal of Lord LYTTON from Paris upon the opening of the French Exhibition, and he thus expresses himself for Tory edification:

Of society in France there were three classes; the clergy, the nobles, and the people. The third toiled and moiled; the two first lived on the third. The Revolution put an end to feudalism; it disestablished a church which owned one-fourth of the kingdom; it swept away the feudal privileges of the nobles, and it converted the down-trodden serfs of feudalism into free citizens; it established equality before the law; and it substituted love of country for an abject servile respect for a despotic ruler. Its influence was felt far beyond the French frontier. Continental nations owe to it all the liberty that it possesses. I trust that the action of the government of the classes towards the French Republic will open the eyes of the people of this country to the sort of men whom they have had the folly to choose to rule over them."

—Joseph Rosen, Percy, writes:—I was induced to try *Dr. Thomas' Eclectric Oil* for a lameness which troubled me for three or four years, and I found it the best article I ever tried. It has been a great blessing to me.

—Ease by day and repose by night are enjoyed by those who are wise enough to apply *Dr. Thomas' Eclectric Oil* to their aching muscles and joints. A quantity easily held in the palm of the hand is often enough to relieve the most exquisite pain.

—Mrs. M. Stephens, of Albany, N. Y., writes us as follows: "My strength was so weak that I could not eat anything sour or very sweet, even fruit at tea-time would cause Heartburn, fulness or oppression of the chest, short breath, restlessness during sleep, and frightful dreams of disagreeable sights, so that I would often dread to go to sleep. With the use of Northrop & Lyman's Vegetable Discovery this unpleasantness has all been removed, and I now eat what suits my taste or fancy."

—THE THIN CANNOT GAIN IN WEIGHT if they are troubled with dyspepsia, because the food is not converted into the due proportion of nourishing blood which alone can furnish the elements of flesh. But there is no reason, when this wearing, attenuating disease is conquered by Northrop & Lyman's Vegetable Discovery, why there should not be an appreciable gain in weight, which indeed is usually the case. It is a peerless remedy also for Constipation, Liver Complaint, Kidney troubles, and roots out all impurities from the blood.

"His pills as thick as hand-grenades flew,
And where they fell as certainly they slew,"

was said of one of those ignorant doctors in the early times, who might well have been called the side-de-camp of death. The sufferer from scrofula, with sores as bad as JOB'S, need not now curse the day he was born, for Dr. Pierce's Golden Medical Discovery will restore health and beauty, appetite and strength. Especially has it manifested its potency in curing salt-rheum, tetter, boils, carbuncles, sore eyes, scrofulous sores and swellings, hip joint disease, white swellings, goitre, or thick neck, and enlarged glands.

### ALDERMANIC BOARD.

**Communications—Reports—By-Laws—Sewerage.**

At 8 o'clock last evening the regular weekly meeting of the board of aldermen was held. Present: His Worship Mayor Grant, Alds. McKillican, Harris, Wilson, Goodacre, Vigelius, Kelly, Harrison, Coughlan and Styles.

Minutes of previous meeting read and adopted.

COMMUNICATIONS.

From John Reid, expressing admiration at the improvements on Beacon Hill Park and suggesting that a sidewalk be laid on Quadra street. Referred to street committee.

From S. Joseph Spencer, expressing regret at the action of the board in regard to the use of Beacon Hill on Sunday. Ald. Goodacre said the gentleman took the undue liberty of publishing all correspondence on the subject in the public press.

His Worship said he had little to say on the subject, but would state that this city is as orderly on Sunday or any other day as any other city in which Mr. Spencer ever lived. There are a number of halls in the city, and permitting public speeches in the park on Sundays might lead to socialistic speeches in public places. The music performed on Beacon Hill every Sunday was appreciated and would not do harm to anyone.

Ald. Wilson considered that there was no objection to holding meetings, but he decidedly objected to the erection of stands for speech making. Communication received and filed.

From W. Grimm, asking for the use of Johnson street for building purposes. Permission granted.

From J. L. Turnbull, asking for a crossing over the sidewalk on Princess avenue. Referred to street committee.

From Alex. Calder, informing the board that a crop of thistles bloom in a lot on Belcher street. Referred to street committee.

From Kwong On Tai & Co., informing the board that they intend to discontinue the manufacture of opium. Filed.

From Smith & McIntosh, asking for permission to use a portion of Yates and Douglas streets for building purposes. Granted.

From Redon & Hartnagel, calling attention to the defective condition of the sewer which runs from the Victoria theatre, and is used by numerous places on Fort street. Received and referred to the sanitary committee with power to act.

From E. E. Blackwood, calling attention to a petition regarding the defective condition of Fourth street, Work estate. Referred to street committee.

From W. Lorimer, inviting the mayor and board to attend the annual gathering of St. Andrew's and Caledonian society on July 4th. Received and accepted with thanks.

From W. M. Chudley, hon. secretary of the Jubilee hospital committee, requesting a donation towards the construction of the Jubilee hospital. Referred to finance committee.

Ald. Goodacre suggested that the aldermen donate their salaries to aid in constructing the hospital.

The following communication was read from Hill & Co., of Plymouth, England, offering to construct sewers in the city for the sum of $442,365:

WHITEHAVEN, June 5, 1889.

*To Their Worships the Mayor and Aldermen of the Corporation of the City of Victoria:*

SEWERAGE OF THE CITY.

In further continuation of the subjects alluded to in our letter to His Worship the Mayor, bearing date 21st May last, we beg to enclose herewith a tender, and accompanying letter dated the 3rd inst., which we have received for the construction of the whole of the works as described in the bill of quantities, and in accordance with the specifications and conditions from Messrs. Hill, contractors, Plymouth, England, they offer to execute the whole of the works for the sum of four hundred and forty-two thousand three hundred and sixty-five dollars, $(442,365) Messrs. Hill are a firm of great experience in carrying out sewerage and water works; they have ample means, and are responsible people. From the testimonials (originals) which they have produced from many well-known engineers and from corporate bodies with whom they have been engaged in contracts, If Your Worships, on due consideration, decide to accept their tender, one of the partners will at once come out to Victoria with a view to complete the necessary formalities; and to make necessary arrangements for the work being put forward.

One of the partners paid a visit to Whitehaven to see the copy drawings, specifications, conditions, etc., (all of which you have the originals.) We very carefully gave them the strata of each sewer—that is, so much rock and so much loam, etc. We also gave them the prices of materials, duties inward, price of labor, etc., and they have further made independent inquiry and they are very anxious to be entrusted by you with the works.

We note by the Victoria newspapers that you either had, or were about to contract with some firm for the construction of the Johnson street section of sewers. Well, if that be so, it will not affect Messrs. Hill's tender, because Messrs. Hill will only be paid for what work they really execute according to the schedule.

Messrs. Hill have filled up the bill of quantities in detail, showing how their tender is made up. We retain details in the meantime till you decide whether you accept their tender or not. In case you accept we will send out with one of the partners the schedule, with instructions as to the contract generally.

We remain, gentlemen, your obe lient servants, W. H. H. HILL & Co.

per Hill & Co.

June 3, 1889.

PRESCRIBED FORM OF TENDER.

*To His Worship the Mayor and Council of the City of Victoria, B. C.*

GENTLEMEN.—We are willing, and hereby tender, to execute the works, Contract No. 1, described and referred to in the specification, and annexed schedule of quantities, according to the terms, obligations and conditions in such specification contained, at and for the sum of four hundred and forty-two thousand three hundred and sixty-five dollars.

And we do hereby declare that the sums, amounts, and prices mentioned and set forth in the annexed written schedule are the true and actual sums amounts, and prices upon which such tender is founded. Your obedient servants,

W. H. H. HILL & Co,
Contractors, Plymouth, England.

$442,365.

We observe that a firm has been pressing you to use in the sewerage system a certain class of pipe. If the pipes referred to are really reliable and enduring, both we and the contractors would no d ubt be inclined to use them; but we would be inclined to use great caution in this respect. Many attempts have been made in England and on the continent of Europe to displace the ordinary glazed earthenware pipe—in some cases with more or less success—but the general result is, so far, that the earthenware pipe holds a decided pre-eminence up to the present.

Messrs. Hill would send over a brick machine plant, and make their own bricks.

They would also use machinery in excavating the trap rock, and generally they would freight a vessel with a quantity of ironwork, cement and pipes as a commencement, but with a view to procure the remainder of the ironwork, etc., etc., in Victoria, when time enables them to make arrangements. When your worships have considered this offer we would be obliged if you would kindly communicate to us your decision by cablegram, followed by a letter from your clerk. We are Your Worships' Obedient Servants,

PICKERING & CROMPTON.

P. S.—Any saving in decreased depth of sewers will be deducted; that is, the schedule regulates all prices. On the other hand, some small extra work may be necessary, but we believe we have included every work that is likely to be needed. P. & C.

"RE VICTORIA DRAINAGE WORKS."

From Hill & Co., Compton Gifford Main Sewer Outfall Works, Compton, England.

*To the Honorable Mayor and Corporation, City of Victoria:*

Gentlemen—We beg most respectfully to submit tender for carrying out the above works. We might also say we have had great experience in similar works. We have done and carried out in England over one hundred miles of sewers, for which we submit testimonials. We have also sent to your engineer the original testimonials. Should you instruct this contract in our hands, we will carry out the same so that it shall be a credit to ourselves and every one connected with the same. We would also try and get the contract finished in two and one-half years.

Ald. Vigelius asked whether a telegram was sent to Mr. Pickering.

His Worship replied that a telegram was sent and acknowledged by Mr. Pickering.

Ald. Harrison moved that the contract be awarded to the firm at their figures. Seconded by Ald. Coughlan.

The board decided to meet this evening to consider the tender and specifications.

From Noel Leclair, informing the board that a mistake was made in his tender for certain street work. Referred to street committee.

From Eberts & Taylor, city barristers, reporting that the charge for infracting the building by-law was withdrawn in the police court and suggesting that the words "building inspector" be erased from the building by-law.

Ald. Coughlan said it was time that a proper person was found to give an opinion on buildings of this description.

Ald. Kelly said Mr. Leech was a good officer; he might err; every man was liable to err; the work on the building in Waddington alley made it safer and better than it ever was before.

Ald Wilson said it was time the building by-law was remodde'ed. The city barrister agreed with Mr. Leech that the work on the building under discussion was not an infraction of the building by-law.

His Worship said it was unfair to others to allow this flagrant transgression of the by-law. The legal advisers did not give an opinion regarding the permanency of the building.

The communication was received and filed.

From J. P. Burgess and others, calling attention to the impassable condition of Chambers street.

Ald. Vigelius, chairman of the street committee, reported that the work would be proceeded with at once. The matter was under consideration. Referred to street committee.

TENDERS

From James Crawford offering to purchase $25,000 worth of debentures at par.

Tenders were also received from the Bank of British North America, Bank of B. C., Canada Life Assurance Company and Robt. Ward & Co. The tender of Robert Ward & Co. offering to accept the whole amount at 103½ was accepted.

BY-LAWS.

Ald. Coughlan asked leave to introduce a by-law to raise the sum of $170,000 for water works, park and fire purposes. Read a first time.

Ald. McKillican introduced a by-law to remunerate the Board of Aldermen. Read a first time.

The revenue by-law was laid over until this evening.

NOTICE OF MOTION.

Ald. Wilson gave notice to introduce a by-law to aid the Victoria-Saanich-Westminster railway.

Ald. McKillican asked leave to introduce a by-law re street railway.

Ald. McKillican asked leave to introduce a by-law to amend the building by-law.

REPORTS.

From Supt. Sheppard re the presence of prostitutes at theatres and public places. There was no law on the statute books, that he could discover, by which he could prevent women of loose character attending places of public amusement as long as they conducted themselves properly while there. If they misbehaved he would deal with them promptly. He had made careful enquiry, and found that there were less than forty white prostitutes living in Victoria; and the majority were quiet, orderly and law abiding. Report received and filed.

MISCELLANEOUS.

Ald. Styles asked for information regarding the removal of backs from the centre of Government street.

Ald. McKillican said he intended to bring forward a by-law but was informed by the city barrister that the backmen would remain on the street until their license expired at the end of the year.

Ald. Kelly said he considered that the backmen should be sent to another street. They are a nuisance on the principal streets.

Ald. Coughlan called attention to the defective condition of Government street near Mr. Finlayson's residence.

Ald. Vigelius said the street would be attended to as soon as rock can be obtained.

Ald. Styles considered that this necessary work should be proceeded with at once.

On motion the board decided that the work should be proceeded with forthwith.

His Worship reported that a young man named Dougall was anxious to receive compensation for injuries received in falling off a sidewalk in the city.

Ald Vigelius said the question was in the hands of the city barristers.

Ald. Coughlan moved that fifty tons of four inch water mains be purchased. Carried.

The finance committee reported that in their opinion it would be inexpedient to grant exemption from taxation to the British Columbia Ice Manufacturing and Fish Freezing Company. Adopted.

His Worship read the following telegram from Mr. Pickering: "Engaged at Westminster. Start soon."

Ald. Goodacre considered that a telegram should be sent, asking Mr. Pickering to bring a contractor from England.

Ald. Wilson reported that he heard Rev. Mr. Starr's sermon on Sunday evening. The board should attend the Methodist church in a body on Sunday next. A continuation of last Sunday's sermon would do them no harm.

The aldermen was speaking on the subject when the board considered it advisable to leave their seats. The meeting adjourned on account of the absence of a sufficient number of aldermen to form a quorum.

## The Street Railway Guarantee By-Law, 1889.

WHEREAS, BY A BY-LAW ENTITLED THE "Street Railway Bylaw, 1888," passed by the Corporation of the City of Victoria on the 4th day of December, A. D. 1888, a charter or franchise was granted by the Mayor and Board of Aldermen of the said City of Victoria, to J. Douglas Warren, Andrew Gray, David W. Higgins, Joseph Hunter and Thomas Shotbolt, to lay tracks, erect poles and string wires thereon for motor, lighting, and other electrical purposes.

And whereas, the said J. Douglas Warren, Andrew Gray, D. W. Higgins, Joseph Hunter and Thomas Shotbolt have since assigned all their right, title and interest in and to the said charter or franchise, through the Honorable John Herbert Turner as Trustee, to a company incorporated and known as the National Electric Tramway and Lighting Company, limited liability.

And whereas, the said National Electric Tramway and Lighting Company, limited liability, is desirous of prosecuting to completion the work contemplated and provided for by the said charter or franchise, and have applied to the Corporation of the City of Victoria for aid, in order that the said works may be speedily constructed and put in operation.

And whereas, it is expedient to grant the prayer of the said company for such aid by a guarantee of interest at the rate of five (5) per cent. per annum for a period of twenty years on the sum of forty thousand dollars ($40,000), for a part of the undertaking contemplated by said company, namely, for the purpose of constructing and equipping a Street Tramway or Railway.

And whereas it will require the sum of two thousand dollars ($2000) to be raised annually by special rate for the payment of said interest, in the event of the said corporation being called upon to pay the same.

An whereas the amount of the whole rateable property of the said Corporation of the City of Victoria, according to the last revised assessment roll, being for the year 1888 was $5,758,445.00, irrespective of any future increase of the rateable property of the municipality and of any income in the nature of tolls, interest, or dividends from the work, or from any stock, shares or interest in the work upon which the money so to be raised or any part thereof is intended to be invested, and also irrespective of any income from the temporary investment of the sinking fund or any part thereof.

And whereas for paying the said interest (in case as aforesaid) it will require an equal annual special rate of one twenty-eighth of one per cent. on the dollar;

And whereas it is intended to reduce the general rate so that the special rate shall not increase the total rate of taxation.

Therefore be it enacted by the Mayor and Aldermen of the Corporation of the City of Victoria as follows:

1. That the Corporation of the City of Victoria shall guarantee interest at the rate of five per cent. per annum on the bonds of the said National Electric Tramway and Lighting Company, limited liability, to the amount of forty thousand dollars ($40,000) for a period of twenty years from the date of said guarantee in manner following, namely:

2. When it shall have been shown to the satisfaction of the Corporation of the City of Victoria that fifteen thousand dollars ($15,000) of the capital stock of the said Company has been paid up by the subscribers thereto and bona fide expended in and towards the construction of a street railway in the said city by said company according to their charter, the said corporation shall guarantee interest at the rate of five per cent. per annum on a first issue of bonds of the said company to the amount of fifteen thousand dollars ($15,000), the interest so guaranteed to be paid half-yearly.

3. When it shall have been shown to the satisfaction of the said corporation that a further sum of fifteen thousand dollars ($15,000) of the capital stock of the said company has been paid up by the shareholders thereof and a sum of at least forty-five thousand dollars ($45,000) has been bona fide expended in and towards the construction of a street railway in said city by the said company, the said corporation shall further guarantee interest at the rate of five per centum per annum on a further issue of bonds to the amount of fifteen thousand dollars ($15,000) for a period of twenty years from the date of such guarantee, the interest so guaranteed to be payable half-yearly.

4. When it shall have been shown to the satisfaction of the said corporation that a further sum of fifteen thousand dollars ($15,000) of the capital stock of the said company has been paid up by the shareholders thereof and a sum of at least seventy thousand dollars ($70,000) has been bona fide expended in and towards the construction of a street railway aforesaid, the said corporation shall further guarantee interest at the rate of five per centum per annum on a further and final issue by the said company of bonds to the amount of ten thousand dollars ($10,000) for a period of twenty years from the date of such guarantee, the interest so guaranteed to be payable half-yearly, the proceeds of this last issue of bonds to be expended as aforesaid.

5. The liability the said corporation shall not extend beyond the guarantee of interest at the rate of five per centum per annum as aforesaid.

6. The guarantee is subject to the conditions that the said corporation shall have the right to appoint one or more auditors to examine the books of the said company, and shall have the further right to a representative on the board of directors of the said company during the whole period of the continuance of this guarantee, such representative to be nominated by the said corporation.

7. **THE BRITISH COLUMBIA FIRE INSURANCE COMPANY.**
TAKES RISKS ON THE CASH OR MUTUAL PLANS.
As this is a Home Company, organized by British Columbians for the two-fold purpose of giving cheap insurance and keeping the money in this Province, it commends itself to the support of every insurer desiring the prosperity of this country.
In Ontario, the system of insurance, which is similar to that adopted by this Company, has been in highly successful operation for the past fifty years, and it has proved to be a great advantage to every insurer in it, by reducing the cost of insurance, and it is estimated that now three-fourths of the insurance effected in Ontario is carried by mutual companies.

### SPORTS AND PASTIMES.

#### Lacrosse Team—Baseball—Hanlan's Record.

The following members of the Victoria Lacrosse Team will represent this city in the game with Vancouver on Dominion Day:—

W. H. Cullin, J. Cox, Chas. Rea, Geo. Tite, J. H. Cusack, A. E. Wade, J. C. Cambridge, W. J. Ledingham, Charles Cullin, D. Sheddon, J. Sprinkling, A. E. Kenning, J. Patton, D. W. Morrow, W. G. Mackenzie.

The above list looks pretty strong, and it will not be the fault of the boys if they don't win the match. Should Vancouver be fortunate in downing the home team, they will leave the field feeling that they have been playing lacrosse.

The sporting editor of THE TIMES and citizens generally wish them every success.

BASEBALL NOTES.

The Excise will keep this wrestling to consider whether a team will play at Vancouver on Dominion Day.

The game on Saturday after next between the James Bays and Mayflowers will take place at 2:30 o'clock in the Caledonian grounds.

THE WRESTLERS.

The wrestling combination, consisting of Jimmy Faulkner, G. F. Perry, Masada Horakichi, W. H. Quinn, A. Johnston and Peter Schumacher, has been formed to give exhibitions in the east. They leave for Cincinnati about July 1st.

The Port Townsend *Argus* says: "Tom Cleary passed through the city yesterday. In conversation with an *Argus* representative, he said the fight between himself and Austin did not take place as arranged owing to mismanagement on the part of those in charge. They are to fight in Victoria next month for points."

HANLAN'S RACES.

Edward Hanlan, ex-champion, rowed 160 races and only lost 13 in his life. During the ten years intervening between 1875 and 1885 Hanlan made over $300,000 in his profession. For the last three years he has been a loser. His losses aggregate somewhere in the neighborhood of $25,000. He is now worth about $50,000, all well invested in Toronto property. He has a very fine summer hotel on Toronto Island.

### Arrived.

Base XXXX Ale (Lamb's Wool) at the Occidental Hotel bar.

### Marine.

The Geo. W. Elder passed up this morning to Nanaimo to load coal, after which she will return to the Sound and load 400 tons of freight for Alaska, and leave here about Sunday next for the north.

### Death.

Mr. and Mrs. F. E. DeVeulle are called upon to mourn the loss of their little child, William Henry John, who died this morning from cholera infantum, at the age of seven months. They have the sympathy of the community in the loss of their little one.

### Presentations.

At the public examinations this afternoon flattering addresses were presented to Miss Gowen and Mr. D. E. Kerr, retiring teachers, by their co-workers on the teaching staff. As presents, Miss Gowen received a package containing a silver fish knife and fork and silver spoons; Mr. Kerr a goldheaded cane, suitably inscribed, with a portion of Shakespeare's works.

### The Nyanza Strikes a Gale.

A letter has been received from Capt Carrington of the British yacht Nyanza, which left this port a short time ago for the Orient on a tour around the world, stating that on the passage to Japan the yacht encountered a heavy gale which swept the deck and carried away the yacht's steam launch and boats. The Nyanza was consequently compelled to change her course and put into Honolulu for repairs.

### New Hose Reel.

On Wednesday evening the Victoria fire department received a splendid hose reel from the manufactory of the Toronto Rubber Company. The reel stands on six feet bycicle wheels and will carry 400 feet of hose. The firemen are all pleased with their new cart, and will use it in the tournament at Vancouver on Dominion Day. W. W. Farley, of Toronto, was in the city when the reel arrived and attended to its delivery. On Friday evening at 8 o'clock the hose team will use the reel in their exhibition speed race on Yates street.

### Victoria's Enterprising Council.

We understand that the City Council have, with a spirit of enterprise, which is much to be commended, agreed to grant certain aid to the Victoria-Saanich and New Westminster Railway Company for the purpose of aiding in the early commencement of the company's line of railway between this city and New Westminster. And we hear that a public meeting will be held at an early date in order that the company's railway scheme and the advantages of such a line of communication to Victoria may be fully laid before the ratepayers. We have no doubt that all citizens who have Victoria's best interests at heart, will attend the meeting and endorse the praiseworthy action of the City Council.

### Naval.

Her Majesty's fleet arrived from Alberni this morning, which is as far as the men-of-war went, and anchored off the mouth of the harbor, where they will remain until to-morrow morning, when they will sail for Vancouver. To-day the crews received their mails and the vessels refitted with fresh meat, etc. The cruise was brief but enjoyed by all. The weather was fine and the sea tolerably calm. The torpedo boats have been put through a thorough course of manœuvers. There was nothing of any moment occurring on the cruise. Esquimalt will smile when the ships again appear in that harbor.

H. M. S. Champion lost a torpedo near Alberni while practicing. A reward of £5 is offered for its recovery. Nobody would care about keeping such a toy.

### Nanaimo's Sewerage.

Nanaimo has just commenced to discuss the question of sewerage. The aldermen are not thoroughly warmed up yet. But they have started. After a year's discussion they might get down to work. At the last meeting the following occurred:

The Mayor—Mr. Pickering, of the firm of Compton & Pickering, sanitary engineers, is about to visit Victoria. It might be worth our while to request him to examine our city in regard to drainage.

Ald. Baker agreed with the mayor.

Ald. Nightingale thought it was not the want of drainage that caused diphtheria in the city or the disease might be found on several of the other streets. We ought to get the water analyzed.

Ald. Abrams said he had been informed that there was not a man in British Columbia capable of analyzing the water.

The Mayor—The report might be valuable in future. The engineer will be in the country soon.

The meeting then adjourned.

### SUPREME COURT.

UNDER THE SPEEDY TRIALS ACT.

[Before His Lordship Justice Crease.]

Mary, an Indian woman, charged with breaking into Cunningham's store, Skeena river, admitted that she couldn't help it, and that stealing was a second nature to her. His Lordship decided to put her in a place where she might learn to discontinue the habit, and sentenced her to one year's imprisonment.

Thos. Grady, charged with stabbing W. Turnbull, pleaded guilty. Sentence deferred.

W. H. Vernon, on remand charged with cutting one Wilson, was remanded till Saturday.

Howard, a would-be pugilist, and Ireland, charged with larceny, remanded.

### CHINESE BOODLERS.

#### Additions to the American Colony of Bilks.

Two Chinese merchants arrived in this city several days ago from San Francisco. They will not return to the Bay City on account of money matters wherein they defrauded white and Chinese merchants to the tune of about $50,000. The embezzlers were in business, and procured $20,000 worth of goods from white merchants. It is not known how much money was embezzled from Chinese firms, but the amount is roughly estimated at thirty thousand dollars. To secure themselves in case of an arrest the Chinamen have deposited $4,000 in a bank in the city which will be used to fight all efforts to be made for their extradition. At present the embezzlers are in Vancouver. The cute American colony of frauds are considering whether it would not be advisable to assist in procuring extradition papers for these men. A chance is open to the amateur detectives to secure the embezzlers. They are described as yellow colored, clean shaved; wearing gold or nugget and shoes with wooden bottoms. When last seen they wore white socks and were smoking cigars. The description is given fully to avoid mistakes. When these men are captured their photographs should be immediately forwarded to the Chief of Police, San Francisco.

### VANCOUVER NEWS.

#### Interesting Notes from the Terminal City—High Art.

From our own Correspondent.]

Vancouver, June 26—There is no necessity for a street sprinkler to-day.

A document which savors of the educational department, but which appears under the patronage of the principal of the boy's school, Victoria, and which is intended to controvert certain statements contained in a communication of one J. N. Muir to THE TIMES to the effect that "the superintendent of education had advised the teachers to make out *false* returns," has been hawked around by the principal of the east end school of this city among the teachers here for signatures. If the charges preferred are false the superintendent has but to descend from his throne and place his foot on the neck of his tormentor; if true the whole educational staff is not strong enough to bolster him up, or soothe his agitated nerves.

## COMMENTS AND NOTES.

### Esquimalt Fortifications — United States—Russia.

The fortifications at Esquimalt, as we know them, are certainly not of an aggressive character, and cannot be said to offer any menace to our neighbors across the straits of Fuca. When the contemplated schemes of the Dominion and Imperial Governments are fully carried out we shall trust, however, to be able to defend our coal mines and hold our own; but even then, we may as well confess to ourselves, our powers of attack will be limited. Nevertheless these Esquimalt fortifications are viewed with interest, and no doubt discussed with a flattering degree of anxiety at Washington and at St. Petersburg, by the only two powers with whom we are at all likely to come into collision. The reports of our frequent American visitors, and the recent inspection of our coast defences by a Russian man-of-war, are, to put it mildly, likely to allay any undue alarm that may have been felt; but the presence of such war ships as the Swiftsure, the Amphion and the Icarus are surely sufficient to give us, as Rosalind says, "a swashing and a martial outside," and prevent us and our claims from being ignored. With America the sources of possible disagreement are numerous, but as the possession of the island of San Juan was, in the past, satisfactorily settled by arbitration, so will the fisheries question of the east coast and the Behring Sea difficulty, which more nearly concerns us, be amicably settled without recourse to arms, while the many conflicting interests of trade which must from time to time thrust themselves forward as long as we are mutually involved in the toils of high tariffs, will no doubt be peacefully solved by the political economists of each generation. Nevertheless, as there are many international problems that we shall have to work out with the United States, it is wise to recognize and prepare for all emergencies, and neither our self-reliance nor our preference for peace will be lessened by the erection of strong batteries at Esquimalt.

We as Canadians have only one possible antagonist in this vast New World. But then we do not stand alone as a nation. We have a mother country in the Old World, across the Atlantic, where conflicting claims and interests are more numerous, and where in the course of centuries international questions have grown too complex to be easily solved; and as a recognized child of England, we may become involved in her quarrels. A similar area to that occupied by the United States, which are bound together by one federal government, is in Europe divided among the six great powers of England, France, Germany, Austria, Prussia and Italy, and an even greater number of minor kingdoms, principalities and states. They stand like watch dogs, ever on the alert to guard their own, and seize what they can from the looser grasp of others. The territories of one of these empires, and of one which will never be peacefully content until possession has been gained of the Dardanelles, "without which we have not the key of our own house," stretch to the Pacific ocean, and its fortified ports are within a comparatively easy distance of our province. It is, therefore, with Russia that we are most likely to be immediately concerned should a general conflagration burst out in Europe. Thus, by a singular fatality, we have for possible antagonists, on the one hand sixty millions of people, governing themselves, and representing the most modern ideas, and, on the other, an autocratic despot and his ninety million subjects, five-sixths of whom are peasants.

With the history of America we are all of us more or less well acquainted. Her centennial celebrations have rung out her achievements far and wide, until every child knows how, a hundred years ago, she declared her independence and framed a constitution for herself. We accept the situation with due humility, and our Christian sentiments are so perfected that we can permit our Mayor and Aldermen to present their congratulations to the cities on the Sound on the approaching Fourth of July. American manners and customs are familiar to us, and most of us will admit that, fundamentally, we speak the same language. Russia, on the contrary, has, until recently, remained in the twilight of obscurity, and Russian history does not, even in briefest outlines, form part of the school course for our boys and girls. There are anecdotes of Peter the Great to be found in our reading books, and we know from them, that once upon a time, he worked at shipbuilding with his own hands in England, and that, after some years spent in journeying about Europe, he returned to his own country and built the splendid city on the Neva that bears his name. But without connecting links with the past and present he is apt to figure in our imagination as rather a mythical personage, if we do not relegate him altogether to the time of our own Alfred. Lady Verney, in the current number of the *Nineteenth Century*, has however provided us with the lines necessary to connect him with the present and we learn that it is precisely 200 years ago since, in 1689, at the age of seventeen, he deposed an elder sister, set aside two elder brothers, and placed himself on the Russian throne. He seems to have been in many ways a cruel and barbarous man, and at the same time a strange mixture of high aims and lofty ambitions. He married a peasant girl, who succeeded him as Catherine the First. Since the time of Peter the Great Russia has been ruled by six generations of his descendants, and the record of these reigns, filled as they are with horrors and murders, remind us of the tragic history of the Stuarts a couple of centuries earlier. In the first generation comes the Empress Elizabeth, a daughter of Peter the Great. She adopted, and was succeeded, by her nephew, Peter the Second, a cruel, licentious, drunken boor. From the stories told of him he must have been insanely idiotic. He amused himself with puppets, which he concealed under the coverlet of his wife's bed. There was a rat that he considered had committed a great crime by climbing over the ramparts of a cardboard fortress and eating two sentinels made of putty. Peter had the rat caught by a setter and hanged, after which the body was publicly exposed for three days as an example to all offenders. Six months after he became Czar he was assassinated, with the connivance of his wife, who succeeded him as Catherine the Great. She reigned for thirty-four years, and, in spite of many crimes, she was solicitous for the welfare of her people, and was distinguished by the wisdom and policy of her measures. Her child, who was known as the crazy Paul the third, and whose tyrannies and caprices were so intolerable that he was assassinated in 1801, represents the third generation of Peter the Great's descendants. He was succeeded by his son, the kind-hearted and well-meaning Alexander the first, the contemporaries of Napoleon, with whom he was sometimes in alliance, and sometimes at war, and by whom he was also defeated. However, Alexander entered Paris in triumph with the Allies, and afterwards visited England, where he was much admired for his magnificent stature and appearance, and his good and handsome face. The fourth generation had another representative on the Russian throne in the person of his brother Nicholas, who was the opponent of England in the Crimean war, and who died broken-hearted with its result. His successor, Alexander the second, the father of the present Czar and of the Duchess of Edinburgh, began his reign with hopes of reform. In 1861 he emancipated 50,000,000 serfs, and provided the peasant communities with land by buying out the land owners at enormous expense. He is supposed to have aimed at diminishing the power of the nobles as much as improving the condition of the peasants. He possessed the unlimited power of an autocrat, but he was blown in pieces by the Nihilists while driving in his sleigh in the streets of St. Petersburg.

Everything has stood still with the present Czar. The bribery and corruption of officials, the ignorance of the peasants, and the interference with private liberty remain as in Peter the Great's time. So rigid a censorship is exercised over all foreign newspapers that they are delivered to subscribers in Russia with broad splotches of ink over all objectionable passages. A machine was described as "moving freely," and the dangerous words was scratched out, for the revolutions of a wheel might suggest wrong ideas.

While the *Nineteenth Century* gives us the outline of Russian history there have been two articles in *Harper's Magazine* describing the social life of the Russian people. We get vivid and brilliant pictures of society in the capital and around the court, of balls in the winter palace, and of moonlight drives, promenades, and open air concerts, in early summer evenings, along the point, and on the islands of the Neva. Contrasting with this gay life we get glimpses of the dreary existence of the great landed proprietors, who pass the summers on their distant estates, in the company of their numerous household dependents, and isolated from the rest of the world. But five-sixths of the entire Russian nation are peasants, who pass their days in labor and obscurity and from them inexhaustible armies can be drawn at the will of the Czar.
